PRE-BIOLOGICAL SCIENCES MAJOR, 2016-2017

Students are not admitted directly to the following majors:

- Biological Sciences, B.A. or B.S.
- Biochemistry-Molecular Biology, B.S.
- Cell and Developmental Biology, B.S.

Instead, they are first admitted to the Pre-Biology major, and they may advance to full major standing in one of these majors only after fulfilling the pre-major courses and grade requirements listed below. Students will not be admitted to the pre-biology major after their seventh quarter (or equivalent), and students will only be admitted to the pre-major in their seventh quarter if they have completed introductory biology and most of the required pre-biology major courses.

**Note:** Completion of the pre-major does not fully satisfy the Preparation for the Major requirements for any of the majors. Students should review the full requirement sheet for the major they intend to declare and plan their schedules accordingly. Also, note, acceptance into the pre-major does not guarantee admission to full major status.

Students may petition for advancement to full major status in any one of the majors as soon as they have completed the required minimum of twelve courses with a 2.0 higher UC GPA in Area B, in Area C, and in Areas A and D combined. At the time of the petition, they must also have a 2.0 or higher grade-point average in all courses attempted toward the major (preparation and upper-division).

**Note:** Many upper-division EEMB and all MCDB courses require a C or higher in each of their prerequisite courses. See General Catalog for details.

**UNITS YET TO COMPLETE**
